Research and Development Cell (R &D Cell)

Birjhora Kanya Mahavidyalaya has promoted meaningful scientific Research and Development activities in its various disciplines of BA Programme. Research and Development Cell was established on 5th April, 2021, at Birjhora Kanya Mahavidyalaya to inculcate research and innovative skills among faculty and students. R&D Cell provides a platform for creativity and innovation to flourish young minds in Institutes. Innovative breakthroughs will happen only because of meticulous efforts of R&D.

COMPOSITION OF R&D CELL

BKM R&D Cell is a nominated committee consisting of four senior faculties with research background from various programs of BA with Principal as head. One of the committee members is appointed by principal as coordinator. This committee oversees the smooth and efficient coordination of research and development activities in the Institute, thus fostering overall growth.

VISION

To put in place robust mechanism for developing and strengthening the research ecosystem within the HEI, aligned with the provisions of NEP-2020.

MISSION

To enable excellence in research and innovation by providing infrastructure and training that promotes creativity and fostering diverse and inclusive work environment. To ensure the optimal and effective use of intellectual and physical resources to foster an environment of research excellence.

OBJECTIVES

The significant factors indicating potential growth in the research activities includes the enhancement in the research publications in peer reviewed journals, workshops for various skill developments of the faculty members/staff and faculty development program. The Research and Development cell of the college propose and frame policies to encourage these activities. The BKM R&D Cell functions with the following general policy

- To nurture research culture in the College by promoting research in newly emerging and challenging frontier areas of social science.

- To organize workshop, FDPs and seminars to provide conducive climate for research and development.
- To sensitize Departments and faculty on potential research environment to nurture research culture.
- To create awareness and opportunities in Research & Development among the faculties and students.
- To create environment among the staff members to improve their acquaintance, skills and credentials.
- To encourage students to publish research papers in National and reputed International Conferences/Journals.
- To identify and inform faculty members, about the appropriate research opportunities announced by different academic, research industry or government organizations.
- Try to get funds for conducting Seminar/Workshops/FDP on research related issues and intellectual property rights.
- To encourage research at M.Phil., Ph.D. and Post-Doctoral levels through provisions of research awards and rewards.
- To bring out exclusive research journals for social sciences.
